

BACK COUNTRY BOW REPAIR

LEARN HOW TO CHECK AND REPAIR YOUR BOW IN THE FIELD!

No Bowhunter should have to drive 50+ miles to an archery shop to make a simple repair on their bow and lose valuable hunting time. Willow Creek Archery is going to show you how to check your bow before hunting season and how to do the simple repairs that could prevent your hunt from stopping dead in its tracks.

In this course we will teach you how to inspect your bow, and do simple repairs such as tying a new D-Loop, re-serving your center serving, fixing peep twist, and checking center shot.

Included in this class will be a string jig that you can take home to practice tying our serving and D-Loops. It also includes a tool box with all the tools needed to do these repairs. There is also a checklist card to remind you of all the things you need to inspect before your hunt.

We will be holding multiple classes, to keep class size to groups of 5, because of all the hands on instruction.

Dates: Saturday, April 22nd/29th (more dates will be added if necessary) Class will start at 3:00pm and take approximately 4 hours. We will have pizza and drinks to keep you going!

Cost of this class will be \$200.00 per person. Call or email and schedule your class today! 760-432-0605 willowcreekarchery@outlook.com
